

**The Washington State Parks Foundation  
approved 2 grants for projects at  
Fort Ebey and South Whidbey State Parks!**

**Fort Ebey State Park**

We will build 12 tent pads for the campground and bike-in tent sites so tents will be out of the mud when it rains.

**South Whidbey State Park**

We'll replace rotting creosote timber steps with box steps and gravel on the South Loop of the Forest Discovery Trail.

**Two volunteer projects for 2021 when we can resume regular work parties again...**
