

South Whidbey State Park ~ April, 2023

Yellow Archangel, Holly & Spurge Laurel Pulled

Thanks to our wonderful volunteers for removing these invasive weeds!

Variegated variety has silvery-grey markings on leaves. Flowers are yellow, small and grow on short, upright stems.

Yellow Archangel is on WA State's quarantine list

Spurge Laurel berries, leaves & bark are poisonous to people, cats & dogs. Plant sap contains toxins.

English Holly - berries are poisonous to people & pets

One of the volunteers found this cool salamander!

Come join our next work Party! You never know what you'll discover when you're out in nature!
