

# South Whidbey State Park

## Yellow Archangel – 1<sup>st</sup> Pull Completed!

March 2024

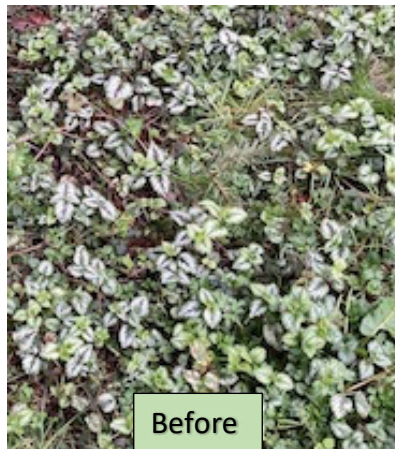

Yellow Archangel is a fast-growing invasive weed. It's one of the top 10 weeds to remove in Island County.

Thanks to the Friends volunteers who are making progress clearing it from the park!

*Variegated variety has silvery-grey markings on leaves. Flowers are yellow, small and grow on short, upright stems.*
